

Forklift Safety Lights Package

Introduction

Forklift Safety Lights are crucial for preventing hazardous collisions and enhancing safety at your site.

The SharpEagle Forklift Safety Lights Package solves this with a single, pre-matched kit, consisting of **one Blue Spot Light, two Red Danger Lights, and one Red Arc Safety Light**, covering the front, both sides, and rear of the forklift. Together, they create a continuous visual warning perimeter that alerts pedestrians and operators from every direction, helping reduce collisions and support a safer, more compliant workplace.

Forklift Spot Safety Light

Model No. SE-01-010 SSL

Product Features:

- ☐ Tempered glass cover.
- ☐ High Power LED with high quality.
- ☐ Beam: Projector spot on the ground.
- ☐ Ingress protection: IP-67
- ☐ Warranty: 1 year
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Casting Aluminium Alloy housing, the suitable design for heating elimination.

Forklift Danger Light

Model No. SE-01-011 DL

Product Features:

- ☐ Light Source: High-power LED
- ☐ Operating Voltage: 10-80V DC
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Material: Aluminium Die-cast housing, PC Cover, Stainless Steel Bracket
- ☐ Optional beam: Line beam
- ☐ Warranty: 1 year

Forklift Arc Safety Light

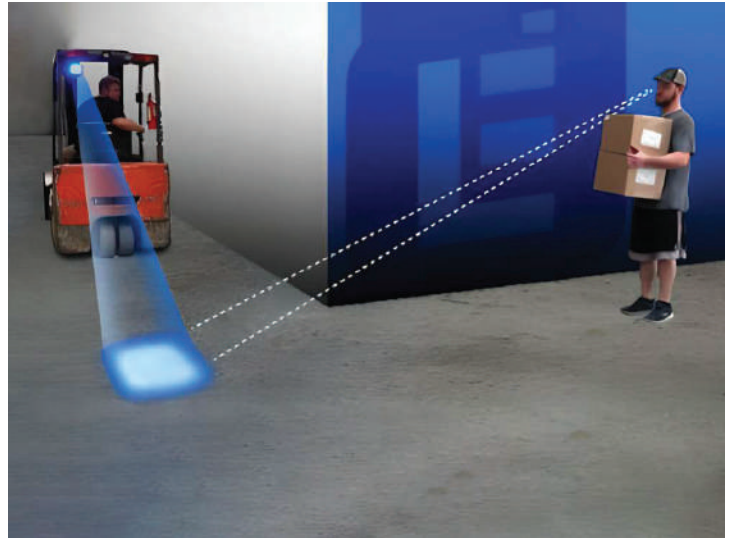

Model No. SE-01-012 ASL

Product Features:

- ☐ Tempered glass cover.
- ☐ High Power LED with high quality.
- ☐ Beam: Projector spot on the ground.
- ☐ Ingress protection: IP-67
- ☐ Warranty: 1 year
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Casting Aluminium Alloy housing, the suitable design for heating elimination.

Forklift Spot Safety Light

Model No. SE-01-010 SSL

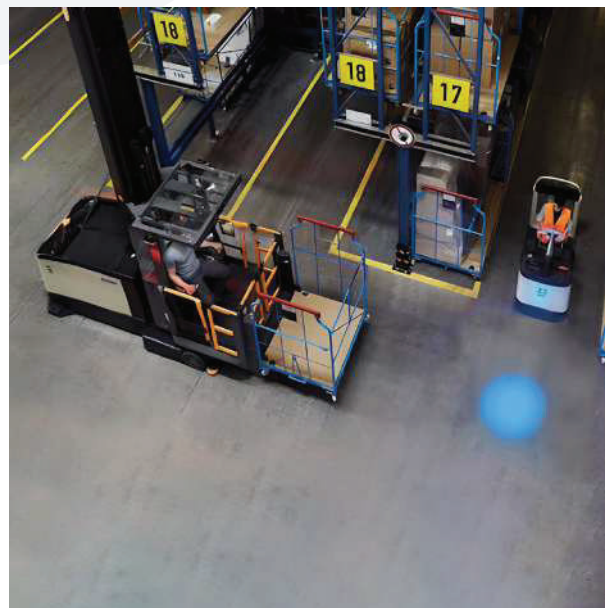

Product Description:

Sharpeagle's Blue Spot Light stands out as an excellent tool for alerting pedestrians and other vehicles as they approach blind corners of forklifts and exit semi-trailers. With a beam projection spot on the ground, the Blue Spot Light is 100% water, dust and quakeproof. It is enclosed in Casting Aluminum Alloy Housing, which is suitable for reducing heat.

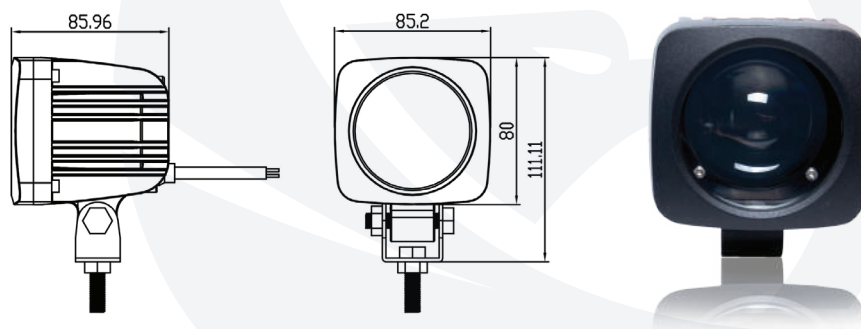

Product Features:

- ☐ Tempered glass cover.
- ☐ High Power LED with high quality.
- ☐ Beam: Projector spot on the ground.
- ☐ Ingress protection: IP-67
- ☐ Warrenty: 1 year
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Casting Aluminium Alloy housing, the suitable design for heating elimination.

Product Specifications:

(LED) High-power	Osram LED 1 pcs*3w
Lux	900lux on the ground @5m
Voltage	10~80V DC or 10-110V DC (Customized)
Color	Blue or Red
Life Time	30000 Hours
Working Temperature	-45°C ~ 85°C
Light Resource	HIGH POWER LED
Size	85*80*86mm

Forklift Danger Light

Model No. SE-01-011 DL

Product Description:

The Forklift Danger Light projects a red line on the ground, indicating a no-go safety zone. Clear visual indicator to highlight the danger zone and prevent accidents. Enhances pedestrian safety, especially in blind corners and behind structures. Promotes a safer working environment by alerting individuals to potential hazards.

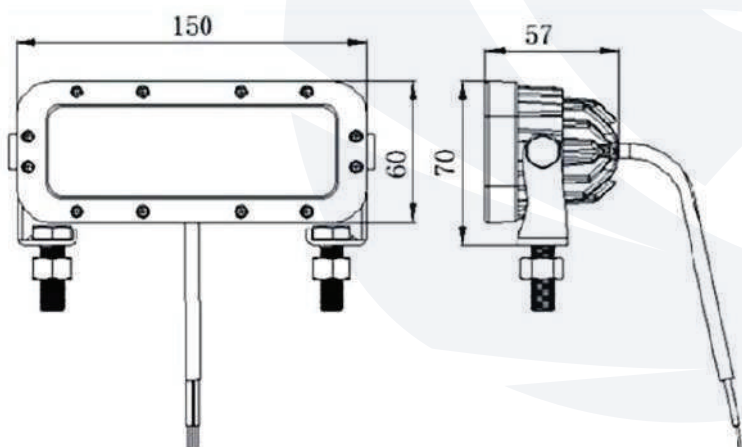

Product Features:

- ☐ Light Source: High-power LED
- ☐ Operating Voltage: 10-80V DC
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Material: Aluminium Die-cast housing, PC Cover, Stainless Steel Bracket
- ☐ Optional beam: Line beam
- ☐ Warranty: 1 year

Product Specifications:

(LED) High-power	6pcs*3W
Lux	200lux on the ground @2.5m
Voltage	10~80V DC
Color	Blue or Red
Life Time	50000 Hours
Working Temperature	-40°C ~ 80°C
Light Resource	HIGH POWER LED
Size	150*60*57mm

Forklift Arc Safety Light

Model No. SE-01-012 ASL

Product Description:

The lighting system comes with casting aluminium alloy housing and double insulated silicon rubberized wire for efficient working in low and high temperatures. It features a high power LED with a beam projection on the ground, enhancing safety and preventing accidents. The tempered glass cover protects it from external damage while the system is also 100% dust, water and quakeproof.

Product Features:

- ☐ Tempered glass cover for durability.
- ☐ High-power LED with superior quality.
- ☐ Beam: Arc/U beam.
- ☐ Ingress protection: IP-67
- ☐ Warranty: 1 year
- ☐ Double insulated silicon rubberized wire, which can bear very low & high temperature.
- ☐ Casting Aluminium Alloy housing, the suitable design for heating elimination.

Product Specifications:

(LED) High-power	Osram LED 1 pcs*3w
Lux	900lux on the ground @5m
Voltage	10~80V DC or 10-110V DC (Customized)
Color	Blue or Red
Life Time	30000 Hours
Working Temperature	-45°C ~ 85°C
Light Resource	HIGH POWER LED
Size	85*80*86mm
